Master of Education in Reading, Literacy, & Learning

Apply the Science of Reading with dedicated instructors' guidance.

Develop practical tools to target a wide range of readers.

Flexible online program ideal for the full-time teacher.

PROGRAM AT A GLANCE

Graduate Degree Plus Endorsement (34 credits)

Our master's can be taken in one-year as a full-time student, or two-years as a part-time student. The program is designed to allow you to investigate research-based theories in literacy, put these theories into practice, and examine how culture impacts literacy teaching and learning.

Endorsement Only (22 credits)

Designed for educators who already hold a master's degree, this endorsement provides the skills teacher-leaders need to empower them to teach reading and writing across the curriculum within the parameters of literacy-based techniques and assessments.

Online Program for Maximum Flexibility

To build community, some of our courses meet synchronously 3-7 times per semester. This format provides you the opportunity to connect with your cohort and your professors while also allowing the flexibility of an online program, ideal for the working professional or full-time teacher. If you're interested in focusing on your graduate classes full-time, we do have graduate assistantships available for our full-time students.

In addition to receiving the degree, you will be eligible to add the endorsement to your license after three years of teaching.
